Measuring Guide

www.kitchensdepot.ca | Designer@kitchensdepot.ca | 705-743-3760

Our Measuring Guide makes measuring easy and provides us with important information to help us design with you! Simply provide a clear and accurate drawing (free hand is fine) of your space. Use the below graph paper or your own paper if you wish OR click the [“MEASURE”](#) button on our home page and record info with our fast and fun measurement tool!

Step 1: Your Kitchen Shape

Draw your kitchen as a box showing all the walls that you think will have cabinets. Be sure to include any major structural features or obstacles. (such as bulkheads, pipe chases, etc.)

Step 2: Draw It Out

Mark any openings such as windows and doorways. Be sure to include radiators or other obstacles that affect where cabinets can be installed. Now, label all the openings in your kitchen. . In this sketch we'll use areas "A" through "M". Record these letters as a key on your sketch.

Step 3: Measure

Now it's time to get out the tape measure. Measure all the openings, from outside edge to outside edge (please include casing/trim in this measurement). If you're uncomfortable with precise measurements feel free to round to the nearest ½" inch. Remember this is just to get started, your designer will confirm details later.

Step 4: Your Layout

Most people already have a good idea of where the major items will go in their kitchen. Feel free to draw your ideas of what you would like and include the placement of your sink and appliances.

Step 5: Pictures of Your Kitchen

What can really help your designer is to take 'before' pictures of your kitchen and send them along with your measurements.

That's it! You're done! It is that easy to measure your kitchen.

Customer Info:

Name: _____

Address: _____

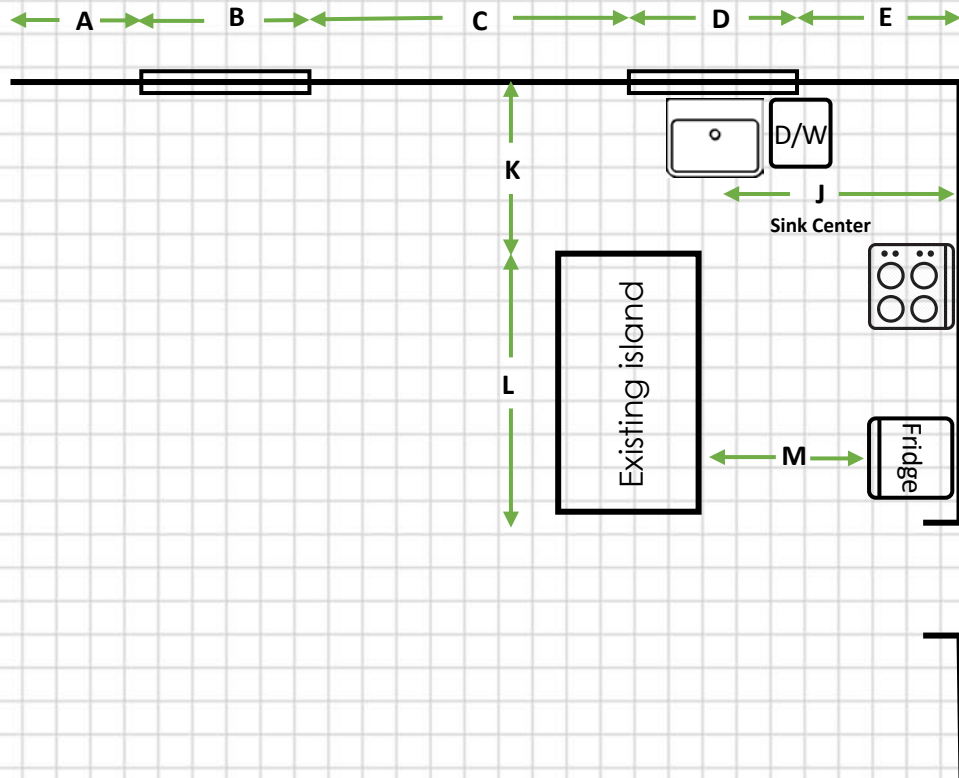

Phone: _____

Email: _____

Notes:

- Please measure to the outside of casing/trim for windows and doors
- Drawing not to scale
- Please include appliance sizes and ceiling height

****PLEASE INCLUDE PICTURES OF YOUR KITCHEN****

letter	Measurement	Appliance	Size (IN)
